PREFACE

1995 DEER ANTLER STATISTICS BY TIME PERIOD

Survey Approach

Resident and nonresident deer license holder samples were randomly selected from a population of all resident and nonresident deer license holders in our license database. Deer hunting and harvest data were acquired via telephone for resident license holders and via a mail survey for nonresidents.

Definitions

FREQ....An abbreviation for frequency indicating the number of occurrences from the sample within the given stratification
TOT%....A symbol for total percentage indicating the portion of all antler types for all time periods within the hunting unit that the given frequency represents
ROW%....A symbol for row percentage indicating the portion of all time periods for a given antler type
COL%....A symbol for column percentage indicating the portion of all antler types for a given time period
UNKWN...A symbol for unknown used to designate unknown time period of kill
ANTLSS..A symbol for antlerless
ANTLRD..A symbol for antlered

Explanations

The deer antler point by time period of kill statistics are from a sample of 54,197 questionnaires representing about 27 percent of all 200,618 deer license holders. No expansions or estimates are given. The frequencies and percentages are from the actual sample data collected. Sample number killed in each antler category is given on the right side of each page. To obtain estimates of the actual number killed in a given antler type or time period category, the percentages can be applied to the kill statistics in the hunting and harvest report.

All valid response data were used in the analyses even when some data fields were missing. This is the reason for the various unknown categories given in the report. An unknown time period of kill column is provided on each page. Kills in an unknown or invalid hunting district within a valid region are represented as "RXX" where R is the regional number 1 through 8. An unknown district in an unknown region is represented as "XXX". The unknown district or region activities are still incorporated into the regional or state totals respectively.
